  Querying and Transforming XML Documents in E-commerce Applications 99
- Jerzy Wąchol
  E-Business in the View of Globalisation and EU Extension 120
- Jacek Wieliński, Waldemar Wieczerzycki
  A Model of Extended Track and Tracing Systems Based on Agent Technology and Mobile Services 135

SESSION: CUSTOMER FRIENDLY BUSINESS

- Kayo Iizuka, Kazuhiko Tsuda, Mitsuo Wada
  Customer Satisfaction Structure Analysis of System Integration - from the Perspective of Environmental Change 147

- N.A. Panayiotou, S.P. Gayialis, S.T. Ponis
  A Structured Methodology and a Proposed Toolset for Reorganizing the Customer Service Process 162

SESSION: E-GOVERNMENT

- Hakikur Rahman
  Role of ICT in Creating e-Government for the Disadvantaged Communities 177

SESSION: E-LEARNING

- Alf Benger, Mathias Uslar, Claudi Wollkopf, Liza Hoedt
  Skill Management in Virtual Organizations 191
- Guido Grohmann
  European Market Developments in Technology Enhanced Learning 203
- Markus Grüne, Kirsten Keferstein, Kirsten Lenz, Andreas Oberweis, Marco von Mevius, Gottfried Vossen
  Individualization of E-Learning Processes by Workflow-Based Learning-Object Management 214
- Aleksander Billewicz, Jerzy Gołuchowski, Krzysztof Kania, Ewa Ziemba, Mullins Roisin
  On-line Intelligent Training System for Internet Marketing by SME's 227

SESSION: GENERAL BIS

- I.T. Hawryszkiewycz
  Strategic Frameworks for Integrating Knowledge Management into e-Business Planning 253
- Ahmed Hezzah, A Min Tjoa
  Temporal Multidimensional Modeling with OLAP for Business Applications 267
- Ari P. Hirvonen, TietoEnator Oyj, Mirja Pulkkinen
  A Practical Approach to EA Planning and Development: the EA Management Grid 284
- Jerzy Kisielnicki
  Management System in a Project Team 303
- Kevin Laframboise, Felipe Reyes
  ERP, Quality Programs, and Influence over Suppliers: A Case Study from the Aerospace Manufacturing Industry in Canada 314
- Bernhard Thalheim
  The Co-Design Framework to Content Specification 326

SESSION: INFORMATION RETRIEVAL AND FILTERING

- A. Niewiadomski, P. Kryger, P.S. Szczepaniak
  Fuzzy Comparison of Strings in FAQ Answering 355

- Andrei Scherbina
  Application of Levenstein Metric to Web Usage Mining 363

SPECIAL SESSION: LANGUAGE TECHNOLOGIES FOR BUSINESS APPLICATIONS

- Jan Daciuk
  Finite-State Lexical Tools 373
- Marek Łabuzek
  A General Purpose Machine Translation System for The Polish Market 381
- Jakub Piskorski
  SProUT: An Integrated Set of Tools for Shallow Text Processing 389
- Wojciech Skut
  Finite-State Text Processing in a Speech Synthesis System 400

SESSION: ONTOLOGIES FOR BUSINESS INFORMATION SYSTEMS

- Muhammad F. Kaleem
  Towards Identifying Representative Characteristics of Web Services Compositions 411
- Mikhail Simonov, Massimo Soroldoni, Aldo Gangemi
  Ontology-driven Natural Language Access to Legacy and Web Services in the Insurance Domain 421
- Vojtěch Svátek
  Design Patterns for Semantic Web Ontologies: Motivation and Discussion 437

SESSION: SOFTWARE ENGINEERING

- Jarmo J. Ahonen, Tuukka Junttila, Heikki Lintinen, Markku Sakkinen
  An Evaluation of Testing in Object-Oriented Software Engineering Methods 449
- Elena Ivankina, Camille Salinesi
  Adapting Ishikawa's Cause-Effect Diagrams to Understand Requirements Threats 461
- Václav Řepa
  Business Processes and Objects in an Information System Development Methodology 476
- Sofiane Sahraoui
  Open Source Software: A Business Research Agenda 491

WORKSHOP: THEORY AND APPLICATIONS OF E-NEGOTIATIONS

- Ryszard Kowalczyk, Victor Phiong , Simon Dunstall and Bowie Owens
  Towards Supporting Collaborative Scheduling in Adaptive Supply Networks with Negotiation Agents 501
- Florian Lang, Freimut Bodendorf
  SettleBot: Strategy Engineering and Optimization for Automated Multiple-Issue Negotiations 516
- Mareike Schoop, Frank Köhne, Dirk Staskiewicz
  A Communication Perspective on Electronic Negotiation Support Systems: Impacts, Challenges, and Solutions 530
- Andreas Tanner
  On the Mean Revenue of Combinatorial Exchanges under Variation of Clearing Policies 542
- P. Tsvetinov, L.Mikhailov
  Reasoning Under Uncertainty during Pre-Negotiations Using a Fuzzy AHP 553
- Xiao Qinghua, Ping Lingdi, Pan Xuezeng
  A General Secure Electronic Auction Protocol 564
